- Native Spanish

RECOGNITIONS AWARDED

🔖 **Cisco: Switching, Routing and Wireless Essentials**

🔖 **Diploma in Mechatronics and Automation - Universidad Autónoma del Estado de Morelos**

🔖 **Cisco Network Academy: English for IT 2**

🔖 **Cisco Network Academy CCNA: Enterprise Networking, Security, and Automation**

PERSONAL PROFILE

Information Technologies Engineering student with a focus on frontend development, embedded systems, and distributed systems design. I am seeking an internship at a company that shares the vision of creating innovative and efficient IT solutions for its clients. I aim to apply my skills in HTML, CSS, JavaScript, and web technologies to contribute to information flow and decision-making processes, while continuing to learn and grow in an environment that promotes continuous improvement and collaboration on innovative projects.

WORK EXPERIENCE

Frontend Developer at Pa'tours
| From October 2024 to 2025

- Front-End with React – Development of dynamic and responsive interfaces.
- Hosting and Domains with Cloudflare – Domain management and web hosting.
- Cloud Databases – Connection via Cloudflare Workers and D1 for scalable solutions.

Collaborator in the Project for Creating an Accessible Low-Cost Braille Printer
Hack for Equality | From March 2022 to Present

- Design of operating logic, circuit, and 3D model
- Programming of the prototype model

ACADEMIC HISTORY

Universidad Politécnica del Estado de Morelos
Information Technologies Engineering | June 2021 to Present

- Studies in analysis, design, and implementation of IT solutions
- I have been working on various problems that require analysis, design, and implementation, such as the management system for computer equipment loans at the Universidad Politécnica del Estado de Morelos.

Universidad Autónoma del Estado de Morelos
Digital Electronics Laboratory Technician | From June 2017 to August 2020
