PROFESSIONAL SUMMARY

Result-oriented Front-End Developer with a B.Sc. in IT Engineering and extensive experience building complex, data-driven web applications using **React.js**. Proven ability to architect full-stack solutions (React + Laravel) and translate abstract client requirements into responsive, high-performance user interfaces. Combines a strong foundation in Linux/DevOps and Cloudflare deployments with deep knowledge of JavaScript to troubleshoot pipelines and optimize application performance.

TECHNICAL SKILLS

Front-End Development: React.js (Hooks, Context API, Redux), JavaScript (ES6+), HTML5, CSS3, Responsive Design, DOM Manipulation, UI State Management.

Back-End & Database: Laravel, PHP, RESTful API consumption, MySQL, SQLite.

Infrastructure & Tools: Cloudflare (Pages, DNS), Linux (Ubuntu/Debian), SSH, Apache/Nginx, AWS (EC2), Git/GitHub, Docker.

Networking: TCP/IP, DNS Configuration, Firewalls (UFW), VPNs (WireGuard).

Soft Skills: Agile Workflow, Requirements Analysis, Technical Documentation, English C1 (Advanced).

KEY DEVELOPMENT PROJECTS

Escudo Ciudadano / Crime Management System (Thesis Capstone) 2024 - 2025
Lead Full-Stack Developer (React.js, Laravel, Python)

- **React Architecture:** Architected a scalable front-end handling **4 distinct user roles** (SuperAdmin, Admin, Institution, User) with protected routes and dynamic UI rendering based on permissions.
- **Data Visualization:** Implemented interactive clustering maps to visualize high-risk zones and crime reports using geolocation data.
- **Core Features:** Developed modules for ticket management, formal complaint tracking, and statistical reporting (user growth, crime rates) using charting libraries.
- **State Management:** Managed complex application state across multi-step forms for evidence submission.

Student Grading System (Colegio W. Shakespeare) 2023 - 2025
Full-Stack Developer

- Engineered and deployed a custom grading platform to replace legacy manual processes.
- Built the front-end in **React** to allow teachers to input grades and generate dynamic report cards.
- Maintained the system post-MVP, adding features based on staff feedback and optimizing the UI for non-technical users.

PROFESSIONAL EXPERIENCE

Main Developer & Front-End Specialist Remote
Pa-Tours.com.mx 2023 - 2024

- **Full React Build:** Solely responsible for designing and developing the complete landing page architecture from scratch using **React.js**.
- **Cloudflare Deployment:** Orchestrated the deployment using **Cloudflare** ecosystem (DNS, Caching, SSL) to ensure high availability and sub-second load times.
- **Optimization:** Transformed client business requirements into a performant SPA (Single Page Application), implementing SEO best practices and responsive layouts.

IT Support Specialist & Front-End Developer Cuernavaca, MX
Colegio W. Shakespeare 2023 - 2025

- **Web Development:** Led the maintenance and updates of the school's internal web tools using React and PHP.
- **Infrastructure:** Managed internal Linux-based web hosting, handling DNS configurations and server maintenance via remote SSH connections to ensure 99.9% uptime.
- **Support:** Resolved infrastructure and credential issues for non-technical staff.

CERTIFICATIONS

- **Advanced React Course** | Platzi (Jul 2025)
- **Network Support and Security** | Cisco Networking Academy (Jul 2025)
- **Introduction to IoT and Digital Transformation** | Cisco Networking Academy (Jun 2025)
- **Frontend Developer Course** | Platzi (May 2024)
- **Course on PHP with Laravel** | Platzi (Aug 2024)
- **Python Essentials 1** | Cisco Networking Academy (Jan 2024)
- **CCNA: Enterprise Networking, Security, and Automation** | Cisco Networking Academy (Apr 2023)
- **English C1 - TOEFL ITP** | ETS (Valid until Jun 2027)

EDUCATION

B.Sc. Information Technology Engineering	Morelos, MX
<i>Universidad Politécnica del Estado de Morelos (UPEMOR)</i>	Concluded Dec 2025
• <i>Status:</i> Coursework & Thesis finished. Title expected Dec 2026. • <i>Focus:</i> Distributed Systems, Network Security, Web Application Development.	
Technician in Digital Electronics	Morelos, MX
<i>Universidad Autónoma del Estado de Morelos (UAEM)</i>	2017 – 2020
